RE: Stadium at Rentschler Field "Supplemental Stadium Parcel", East Hartford, Connecticut

APPROVAL OF INVESTIGATION REPORT

The Permitting, Enforcement & Remediation Division of the Bureau of Water Management ("the Department") has reviewed the report regarding "Soil Sampling-Supplemental Stadium Parcel, North Klondike Undeveloped Land Area-Airport/Klondike Area, Pratt & Whitney East Hartford, Connecticut", dated November 9, 2000. The report was prepared by Loureiro Engineering Associates, Inc. on behalf of United Technologies Corporation. The report presents the results of additional soil investigations on a 3.25 acre parcel which is to be transferred to the State of Connecticut as part of the University of Connecticut stadium redevelopment. The investigations were performed in accordance with a work plan approved by the Department on October 24, 2000. The report concludes that no further investigations are required for the property.

The report is hereby approved.

Nothing in this approval shall affect the Commissioner's authority to institute any proceeding, or take any action to prevent or abate pollution, to recover costs and natural resource damages, and to impose penalties for violations of law. If at any time the Commissioner determines that the approved actions have not fully characterized the extent and degree of pollution or have not successfully abated or prevented pollution, the Commissioner may institute any proceeding, or take any action to require further investigation or further action to prevent or abate pollution. This approval relates only to pollution or contamination identified in the above referenced report.

In addition, nothing in this approval shall relieve any person of his or her obligations under applicable federal, state, and local law.

If you have any questions, please contact Richard Hathaway of my staff at (860) 424-3780.
